

TEXAS TRAINING FACILITY

ArmorGroup International Training's San Antonio, Texas training facility provides a 275-acre secure and private facility which has the capability to conduct realistic and tailored training for US government, law enforcement and commercial clients. The facility is located south of San Antonio, just off of Interstate 35, in Pearsall, Texas. The facility benefits from the following:

- Wide variety of live-firing ranges for Close Protection, PSD and specialist unit drills, including:
 - 50 metre, 7.62 mm ranges;
 - 200 metre shooting range.
- Two 2 mile driving tracks with different driving surfaces to provide realistic and challenging driving conditions and configurations and to give experience of:
 - high speed straights;
 - open road and street-width turning;
 - narrow/confined driving conditions
- Off-road course which simulates adverse 4-wheel driving conditions of all types to prepare students for operations in poor infrastructure environments. Students are fully trained in:
 - handling characteristics, proper gear selection, center of gravity shifts;
 - winching and recovery techniques;
 - traversing obstacles such as logs, ditches, water, mud, sand, inclines and other terrain conditions.
- Realistic hostile environment street scene and vehicle crash area.
- Wide range of training vehicles:
 - Unmodified Pontiac Grand Prix automobiles;
 - Crash vehicles for realistic defensive driving training.
- Complex of training classrooms
